A. A Word that Makes People Squeamish

1. Protection and redemption

B. The Enemies of Israel

1. Enormity of evil
2. Preserving the remnant

C. The Crux of Holy War

1. God's war against evil

“The essence of holy war in the Old Testament is not about two nations in warfare, one of which happens to be Israel. Holy war is about God warring against sin and evil on the earth. His people were to live in the safety of holiness and righteousness. Their existence as God’s redeemed people was threatened from the beginning by the rest of the world... Therefore the success of God’s plan of redemption required the protection of his people in his war against evil, which required that those people take both offensive and defensive measures to assure their existence. This in turn meant that holy war became necessary whenever their existence was threatened until in the fullness of time, Jesus, the ultimate divine warrior and king of Israel, was born from and for God’s people.”¹

A. The End of Holy War

1. Jesus fought its final episode on the cross
2. God’s vengeance and wrath toward evil

B. The Continuing Battle – Ephesians 6

1. Our battle is not against flesh and blood
2. Our weapons come from empowerment of the Holy Spirit

X. There is None Righteous

A. The Amalekite in Me

B. God’s Irrevocable Decree

1. We deserve death
2. Counter-acting decree

“Just as Xerxes king of Persia could not simply rescind the first decree of death, God, King of the Universe, cannot simply rescind the decree of death pronounced in the Garden of Eden against humanity. Instead, he issues a counter-decree of life, the gospel of Jesus Christ. Because God did not simply rescind the curse of death on humanity, his counter-decree of redemption necessarily resulted in the incarnation of his Son and in that Son’s death on the cross.”²

A. A Word that Makes People Squeamish

1. Protection and redemption

B. The Enemies of Israel

1. Enormity of evil
2. Preserving the remnant

C. The Crux of Holy War

1. God's war against evil

“The essence of holy war in the Old Testament is not about two nations in warfare, one of which happens to be Israel. Holy war is about God warring against sin and evil on the earth. His people were to live in the safety of holiness and righteousness. Their existence as God’s redeemed people was threatened from the beginning by the rest of the world... Therefore the success of God’s plan of redemption required the protection of his people in his war against evil, which required that those people take both offensive and defensive measures to assure their existence. This in turn meant that holy war became necessary whenever their existence was threatened until in the fullness of time, Jesus, the ultimate divine warrior and king of Israel, was born from and for God’s people.”¹

A. The End of Holy War

1. Jesus fought its final episode on the cross
2. God’s vengeance and wrath toward evil

B. The Continuing Battle – Ephesians 6

1. Our battle is not against flesh and blood
2. Our weapons come from empowerment of the Holy Spirit

X. There is None Righteous

A. The Amalekite in Me

B. God’s Irrevocable Decree

1. We deserve death
2. Counter-acting decree

“Just as Xerxes king of Persia could not simply rescind the first decree of death, God, King of the Universe, cannot simply rescind the decree of death pronounced in the Garden of Eden against humanity. Instead, he issues a counter-decree of life, the gospel of Jesus Christ. Because God did not simply rescind the curse of death on humanity, his counter-decree of redemption necessarily resulted in the incarnation of his Son and in that Son’s death on the cross.”²

B. God’s Irrevocable Decree

1. We deserve death
2. Counter-acting decree

“Just as Xerxes king of Persia could not simply rescind the first decree of death, God, King of the Universe, cannot simply rescind the decree of death pronounced in the Garden of Eden against humanity. Instead, he issues a counter-decree of life, the gospel of Jesus Christ. Because God did not simply rescind the curse of death on humanity, his counter-decree of redemption necessarily resulted in the incarnation of his Son and in that Son’s death on the cross.”²

1. God's war against evil

“The essence of holy war in the Old Testament is not about two nations in warfare, one of which happens to be Israel. Holy war is about God warring against sin and evil on the earth. His people were to live in the safety of holiness and righteousness. Their existence as God’s redeemed people was threatened from the beginning by the rest of the world... Therefore the success of God’s plan of redemption required the protection of his people in his war against evil, which required that those people take both offensive and defensive measures to assure their existence. This in turn meant that holy war became necessary whenever their existence was threatened until in the fullness of time, Jesus, the ultimate divine warrior and king of Israel, was born from and for God’s people.”¹

Because God did not simply rescind the curse of death on humanity, his counter-decree of redemption necessarily resulted in the incarnation of his Son and in that Son’s death on the cross.”²

1. God's war against evil

“The essence of holy war in the Old Testament is not about two nations in warfare, one of which happens to be Israel. Holy war is about God warring against sin and evil on the earth. His people were to live in the safety of holiness and righteousness. Their existence as God’s redeemed people was threatened from the beginning by the rest of the world... Therefore the success of God’s plan of redemption required the protection of his people in his war against evil, which required that those people take both offensive and defensive measures to assure their existence. This in turn meant that holy war became necessary whenever their existence was threatened until in the fullness of time, Jesus, the ultimate divine warrior and king of Israel, was born from and for God’s people.”¹

Instead, he issues a counter-decree of life, the gospel of Jesus Christ. Because God did not simply rescind the curse of death on humanity, his counter-decree of redemption necessarily resulted in the incarnation of his Son and in that Son’s death on the cross.”²

B. The Enemies of Israel

1. Enormity of evil
2. Preserving the remnant

C. The Crux of Holy War

1. God's war against evil

“The essence of holy war in the Old Testament is not about two nations in warfare, one of which happens to be Israel. Holy war is about God warring against sin and evil on the earth. His people were to live in the safety of holiness and righteousness. Their existence as God’s redeemed people was threatened from the beginning by the rest of the world... Therefore the success of God’s plan of redemption required the protection of his people in his war against evil, which required that those people take both offensive and defensive measures to assure their existence. This in turn meant that holy war became necessary whenever their existence was threatened until in the fullness of time, Jesus, the ultimate divine warrior and king of Israel, was born from and for God’s people.”¹

2. Our weapons come from empowerment of the Holy Spirit

X. There is None Righteous

A. The Amalekite in Me

B. God’s Irrevocable Decree

1. We deserve death
2. Counter-acting decree

“Just as Xerxes king of Persia could not simply rescind the first decree of death, God, King of the Universe, cannot simply rescind the decree of death pronounced in the Garden of Eden against humanity. Instead, he issues a counter-decree of life, the gospel of Jesus Christ. Because God did not simply rescind the curse of death on humanity, his counter-decree of redemption necessarily resulted in the incarnation of his Son and in that Son’s death on the cross.”²

C. The Crux of Holy War

1. God's war against evil

“The essence of holy war in the Old Testament is not about two nations in warfare, one of which happens to be Israel. Holy war is about God warring against sin and evil on the earth. His people were to live in the safety of holiness and righteousness. Their existence as God’s redeemed people was threatened from the beginning by the rest of the world... Therefore the success of God’s plan of redemption required the protection of his people in his war against evil, which required that those people take both offensive and defensive measures to assure their existence. This in turn meant that holy war became necessary whenever their existence was threatened until in the fullness of time, Jesus, the ultimate divine warrior and king of Israel, was born from and for God’s people.”¹

2. Counter-acting decree

“Just as Xerxes king of Persia could not simply rescind the first decree of death, God, King of the Universe, cannot simply rescind the decree of death pronounced in the Garden of Eden against humanity. Instead, he issues a counter-decree of life, the gospel of Jesus Christ. Because God did not simply rescind the curse of death on humanity, his counter-decree of redemption necessarily resulted in the incarnation of his Son and in that Son’s death on the cross.”²

“Just as Xerxes king of Persia could not simply rescind the first decree of death, God, King of the Universe, cannot simply rescind the decree of death pronounced in the Garden of Eden against humanity. Instead, he issues a counter-decree of life, the gospel of Jesus Christ. Because God did not simply rescind the curse of death on humanity, his counter-decree of redemption necessarily resulted in the incarnation of his Son and in that Son’s death on the cross.”²

B. The Enemies of Israel

1. Enormity of evil
2. Preserving the remnant

C. The Crux of Holy War

1. God's war against evil

“The essence of holy war in the Old Testament is not about two nations in warfare, one of which happens to be Israel. Holy war is about God warring against sin and evil on the earth. His people were to live in the safety of holiness and righteousness. Their existence as God’s redeemed people was threatened from the beginning by the rest of the world... Therefore the success of God’s plan of redemption required the protection of his people in his war against evil, which required that those people take both offensive and defensive measures to assure their existence. This in turn meant that holy war became necessary whenever their existence was threatened until in the fullness of time, Jesus, the ultimate divine warrior and king of Israel, was born from and for God’s people.”¹

B. God’s Irrevocable Decree

1. We deserve death
2. Counter-acting decree

“Just as Xerxes king of Persia could not simply rescind the first decree of death, God, King of the Universe, cannot simply rescind the decree of death pronounced in the Garden of Eden against humanity. Instead, he issues a counter-decree of life, the gospel of Jesus Christ. Because God did not simply rescind the curse of death on humanity, his counter-decree of redemption necessarily resulted in the incarnation of his Son and in that Son’s death on the cross.”²
